Valora & Alfresco Announce Technology Partnership

Delivering seamless integration between PowerHouse and Alfresco

Bedford, MA - February 16, 2017 - Valora Technologies, Inc., the leading innovator in AutoClassification, Predictive Analytics and Document Data Mining Technologies, today announced its selection as an official Alfresco Technology Partner for 2017.

At the request of a number of its clients, Valora will be integrating its award-winning, leading-edge AutoClassification and Predictive Analytics platform, PowerHouse, with the Alfresco open platform for Enterprise Content Management (ECM) to provide seamless AutoClassification and enriched metadata capabilities to Alfresco's ECM offerings.

"We are excited to integrate PowerHouse with the impressive set of Alfresco open-source components," noted Valora CEO & President, Sandra Serkes. "With PowerHouse's robust AutoClassification capabilities, Alfresco will offer a compelling and unsurpassed ECM offering, particularly for clients that value interoperability, usability, hybrid cloud alternatives, and support for open standards and APIs."

About Valora Technologies, Inc.

Valora provides world-class AutoClassification, Data Analytics & Visualization technologies for the legal, records management & information governance markets. We offer classification, data mining, analytics, coding and review, document intake and visualization, and hosted solutions for corporations & government agencies, as well as their advisory, inside & outside counsel organizations around the world.

Valora has developed a strong expertise in the processing, management & analysis of complex data populations across large enterprises. Our solutions accommodate on premise, in cloud and SaaS environments, with additional support for sensitive material & mixed languages. Our specialty is providing efficiency, organization and cost control.
