

VALORA TECHNOLOGIES WINS KEY INFORMATION GOVERNANCE AWARD FOR SECOND YEAR RUNNING

Finalist, IG Service Provider of the Year, 2017

BEDFORD, MA (USA) – October 10, 2017 - [Valora Technologies, Inc.](http://www.valora.com) a leader in predictive analytics and AutoClassification for Information Governance, has been named 2017 Finalist for Information Governance Service Provider of the Year at the Information Governance Conference in Providence, RI. As Best IG Service Provider, Valora received high praise from conference attendees for a combination of demonstrated technical acumen and industry leadership.

The Information Governance Conference notes, “The #InfoGov Awards are a way of recognizing the companies and people that are moving the Information Governance industry forward. The #InfoGov Awards are a completely unbiased awards ceremony, with awards chosen by the community through nomination and voting.”

2017 marks Valora’s second year running as Finalist for Information Governance Service Provider of the Year. Last year, Valora also won Finalist for Best Information Governance Pitch of the Year. In 2015, Sandra Serkes, Valora’s President and CEO, won Information Governance Expert of the Year.

“We are honored to receive this continued recognition from arguably the world’s leading authorities on Information Governance,” remarked Serkes. “We are devoted to promoting the very best practices and technology in the fields of document analytics, classification and machine learning.”

Earlier in the conference, Serkes served as moderator and panelist for the “AutoClassification in the Real World” session on Wednesday, September 27, 2017. She was joined by Colin Cahill, Records Manager for Charles Stark, Jr. Draper Laboratory; Lynn Thompson, Data Scientist; and Cliff Dutton, Chief Innovation Officer for DTI, a recent investor in Valora Technologies.
