Valora Technologies

AutoClassification platform used by
Data Governance, Records Managers, Legal, Compliance & IT teams
to locate and automate the identification, classification & defensible disposition
of content across the enterprise data estate.

Technology

Enterprise-grade SaaS platform

- Flexible, scalable, customizable
- True AutoClassification engine

Methodology

Proven Process & Best Practices

- 20+ year pioneers in InfoGov
- In-house Professional Services team

360° View

Single pane of glass

- Un/structured, on-prem/cloud, SaaS
- ID, classify, defensibly disposition

Reducing Risk & Exposure

- ✓ Uncover dark data
- ✓ Inform & action content
- ✓ Ensure compliance

Data Governance Risk

Don't know where it is
or what is it?

Privacy Risk

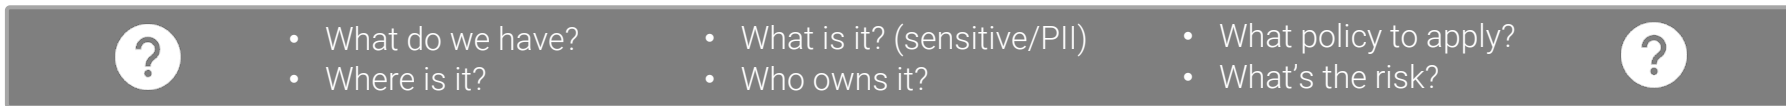

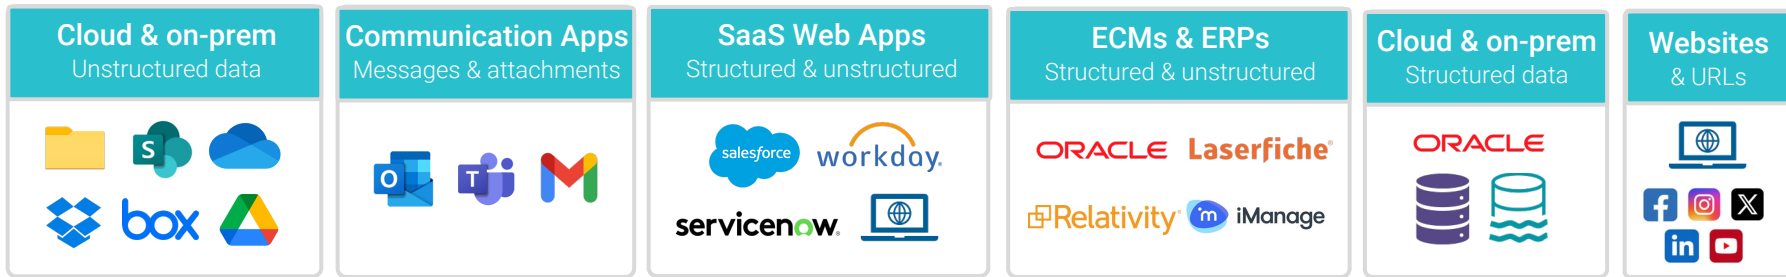

Does it contain personal
or sensitive data?

Compliance Risk

Does it exist when and/or
where it shouldn't?

Data Governance Challenges

FIND

Classify & Report

ACTION
Review & Disposition

ENSURE
Monitor & Audit

- Scans multiple data repositories
- Unstructured/structured
- Cloud & on-prem environments

- Full text analytics
- Dark data discovery & inventory
- Text, preview images for analysis

- Classification, based on content
- Rich metadata application
- On-demand/automated reporting

- Interactive & instant reporting
- Automated rules & workflows
- Defensible disposition

- Scans for new & edited content
- Update changes to policies
- Ensure ongoing compliance

Data Governance Challenges

Cloud & on-prem
Unstructured data

Communication Apps
Messages & attachments

SaaS Web Apps
Structured & unstructured

ECMs & ERPs
Structured & unstructured

Cloud & on-prem
Structured data

Websites
& URLs

- ✓ What do we have?
- ✓ Where is it?

- ✓ What is it? (sensitive/PII)
- ✓ Who owns it?

- ✓ What policy to apply?
- ✓ What's the risk?

What makes Valora different

True AutoClassification

Based on the full text analysis of the content of each file, not file metadata

Complete customization

Custom fields, DocTypes, reports, deployment. Manual, semi or fully automated disposition

Repository Agnostic

Access content across structured and unstructured, on-prem & cloud

Strategic approach

Cross functional use & ROI, defensible compliance, GRC aware

Sophisticated solution/offering

Event-based triggers, hierarchical and multiple data values

Data experts

20+ yrs background in eDiscovery, data discovery, and content analytics, MIT-trained dev team, HBS-trained mgmt

Agenda

- What is Data Privacy & Why should I care?
- How to manage records and data privacy under one initiative
- DSARs: Data Subject Access Requests
- Spoiler Alert: AutoClassification is your friend
- How to advocate for an organization-wide collaborative approach to data privacy
- How to get started

What is Data Privacy?

Data privacy (in general) is the **right to have control** over **how your personal** information is gathered, used, kept, sold and exchanged. The primary thesis is that end-users should have the rights to know, edit, delete or direct how their information exists.

Data privacy (in the context of Information Governance) is the **proper handling of sensitive data** including personal data, financial data, health information and other confidential data to meet regulatory requirements while protecting confidentiality.

Data privacy covers: **personal data protection**, consent & notice, data minimization & purpose limitation, **data subject access rights**, and security measures around sensitive information.

Data Privacy Regulations

2018

2019

2020

2021

2022

2023

2024

GDPR
General Data
Protection Regulation

Federal laws that regulate industry-specific data,
but no current federal data privacy law in the US

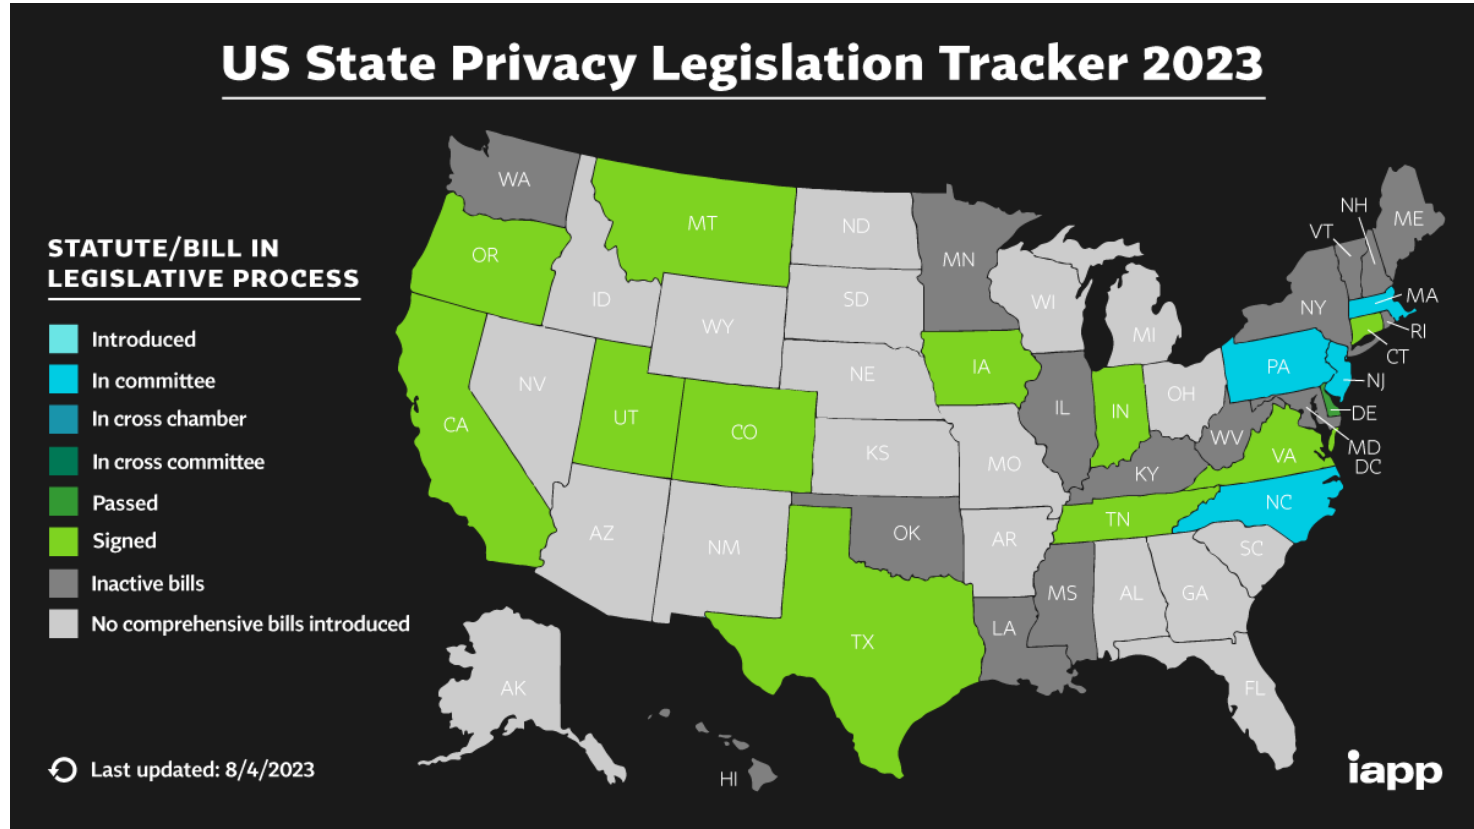

HIPAA, Health Insurance Portability & Accountability Act: communication of health data
FCRA, Fair Credit Reporting Act: information in your credit report, who can see it
FERPA, Family Educational Rights & Privacy Act: who can request to see student records
GLBA, Gramm-Leach-Bliley Act: how consumer financial products share data
COPPA, Children's Online Privacy Protection Rule: limits data collection for children under 13

Individual states are passing privacy bills in lieu of a federal law

Why is this important now?

Get to know IAPP

Status of data privacy regulations in the US
(Aug 2023)

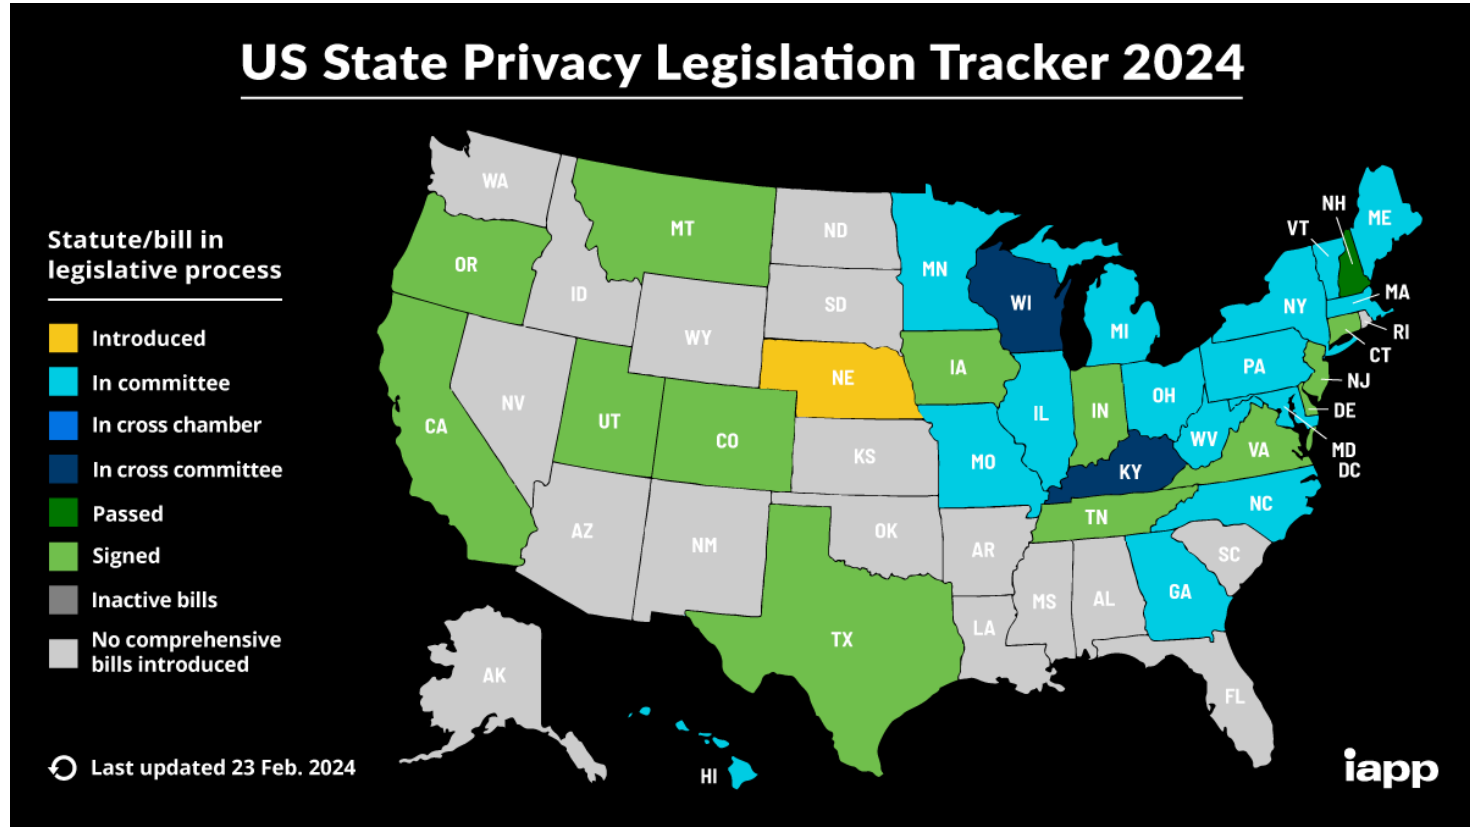

Why is this important now?

Get to know IAPP

Status of data
privacy regulations
in the US
(Feb 2024)

6 months later

Why is this important now?

- Stop thinking data privacy is “someone else’s problem”
- Just like eDiscovery, this will become a RIM/IG “problem”
- Still time to get on top of it

Comprehensive Consumer Privacy Bills

State	Legislative process	Statute/bill	Common name	Consumer rights							Business obligations					
				Right to access	Right to correct	Right to delete	Right to opt out of certain processing	Right to portability	Right to opt out of sales	Right to opt in for sensitive data processing	Right against automated decision-making	Private right of action	Opt-in default (requirement age)	Notice/transparency requirement	Risk assessments	Prohibition on discrimination (exercising rights)
LAWS SIGNED (TO DATE)

Utah		SB 227	Utah Consumer Privacy Act (2022; effective 31 Dec. 2023)	X		X	P	X	X			13	X		X	

“Traditional” Records Management; Historically, why were you unable to delete ROT?

- “No tools.” (Delete, delete, delete...)
- “Can’t find it, ROT is mixed in with the good stuff.”
- No one will let us delete things.

No real penalty to “just keep forever” (and violate our RRS, but ok)

Now, there are real consequences
to not deleting data that is supposed to be deleted (past retention), and that we
said we would delete/retain for only X purposes or time period.

We are now out of compliance (not just sloppy).

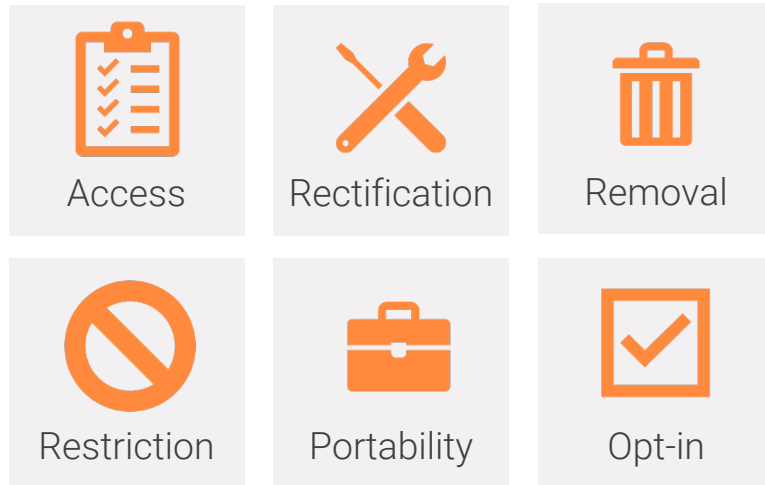

Meh, so we're out of compliance what's the big deal?

- GDPR fines for data privacy compliance violations
 - Meta - €1.2 billion (\$1.3 billion)
 - Amazon - €746 million (\$781 million)
 - Instagram - €405 million (\$427 million)
 - Facebook - €265 million (\$275 million)
 - WhatsApp - €225 million (\$247 million)
 - Google LLC - €90 million (\$99 million)
 - H&M - €35 million (\$41 million)
 - British Airways - €22 million (\$26 million)
 - Marriott International - €20.4 million (\$23.8 million)

Individual Data Privacy Rights, Generally

Right to:

Emerging big topic:

Defining purpose:

- Why did you collect this data?
- What will you use it for?
- And only that reason?
- When will you delete it?

Individual Data Privacy Rights, Generally

Right to:

Emerging big topic:

= Data Minimization

Data minimization requirements are standard fare in data privacy regulations

Current Laws:

- GDPR: any personal data collected (held) must be “adequate, relevant and limited to what is necessary in relation to the purposes for which they are processed.”
- CPRA: business and organizations “shall not retain a consumer’s personal information or sensitive personal information . . . for longer than is reasonably necessary”

Still Pending:

- Data Care Act: “duty of confidentiality” and “duty of loyalty” that restrict disclosure or sale of personal data, particularly those that benefit the seller “to the detriment of the end user.”
- Online Privacy Act: “requirements for covered entities, including data minimization”

Is it Privacy?
Is it RM/IG?

Organization's data ~~privacy~~ responsibilities

DATA PRIVACY

What sensitive data do we have?

Where is sensitive data located?

Who has access to sensitive data?

Are we **handling** sensitive data correctly?

What sensitive data is **accessible** that shouldn't be?

Can I **produce** the relevant information when a DSAR request is made?

RECORDS MANAGEMENT

What information do we have?

Where is our data located?

Who has access to what data?

Are we **handling** our corporate data correctly?

What corporate data is **accessible** that shouldn't be?

Can I **produce** the relevant information when a request is made?

ROT & Retention Classification Tags

ROT YES/NO

Simple umbrella classification Yes/No
Summary of ROT Detail

DUPLICATE TYPE

- Identical (Hash) Duplicate
- 99% (Functional) Duplicate
- 75-98% (Near) Duplicate
- Unique

RECORD CLASS

- Based on Document Type, Source, Custodian/Author, Jurisdiction, Keywords, Personal Data/Sensitivity

ROT DETAIL

- Redundant: Identical Dupe
- Obsolete: File Extension, Past Retention, Temporary, Draft
- Trivial: Auto-Reply, Low Business Value, Non-Record, Code or Executable, Thumbnail, Logo, File Path, File Type, Logo

RETENTION PERIOD

- Direct inherit from Record Class (Rules)

EXPIRATION DATE

- Calculated from Date Hierarchy (differs by Records Type)
- Creation Date, Hire/Start Date, Termination Date,
- Often triggered by events

EXPIRATION HANDLING

- Automatic Deletion
- Approval Required for Deletion
- Quarantine
- Permanent Record

Data Privacy Classification Tags

PERSONAL DATA YES/NO

Simple umbrella classification Yes/No
Summary of PD Detail

PERSONAL DATA TYPE

- PII, PHI, PCI
- SSN, DOB, Personal Address or Phone number
- Financial, CC, bank account info
- MRN, medical data, diagnoses, reports

SENSITIVITY

- Highly Confidential, Confidential, Private, Public

DOCUMENT TYPE

- Contract, Correspondence, Graphic, Financial, Transactional, etc.
- Record ID & Record Class
- Attachments and related files
- Source location
- Record holder or custodian

RETENTION PERIOD

- Direct inherit from Record Class (Rules)

EMPLOYEE INFORMATION

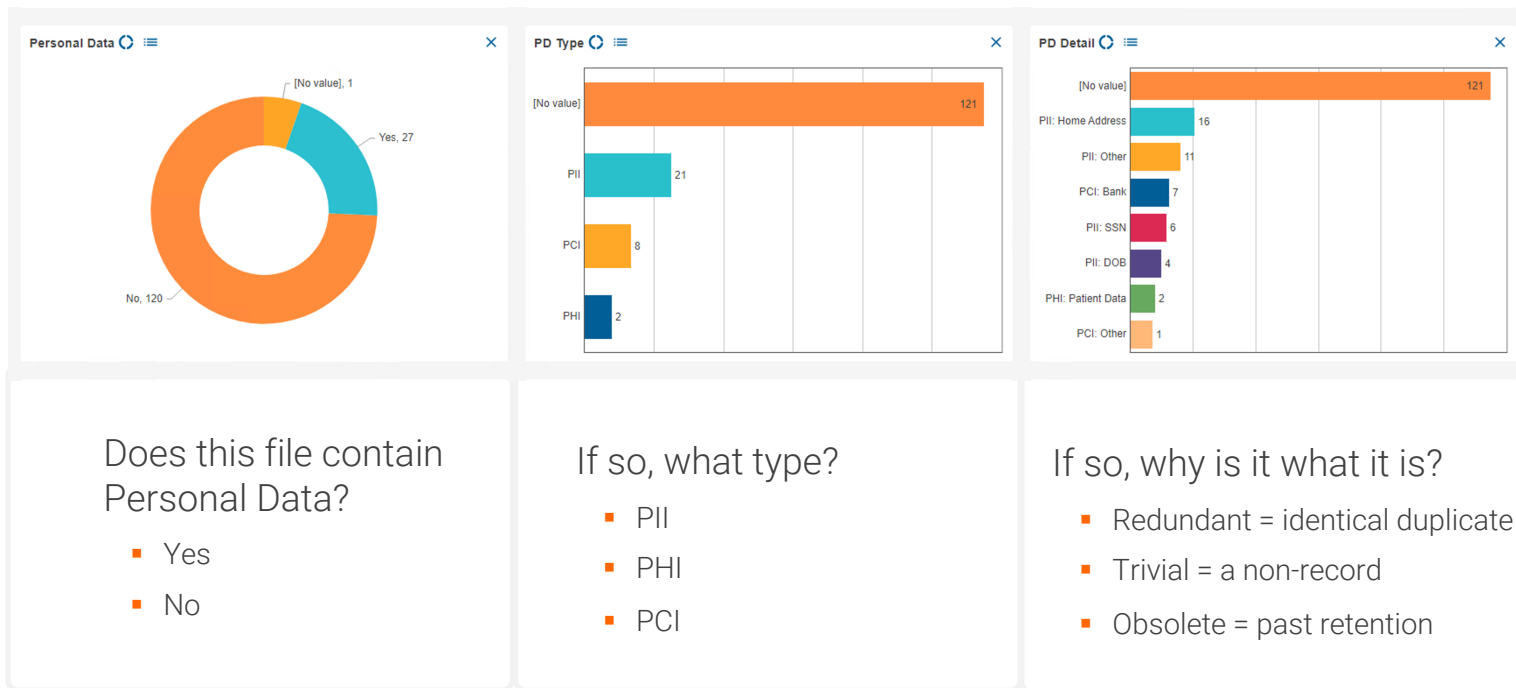

- Employee Name, Employee #
- Hire/Start Date, Termination Date,
- Compensation information

EXPIRATION HANDLING

- Automatic Deletion
- Approval Required for Deletion
- Quarantine
- Permanent Record

Personal data: know where it is & what it is

DSARs: Data Subject Access Requests

DSAR request

Access

Rectification

Removal

Restriction

Portability

Opt-in

Purpose

DSAR request

Delete my data

We need to delete this guy's data. We have xx days to respond.

OK, gimme a sec. I'm going to search every system we have

Wait, some of these are records. We need to keep those for 7 years.

Wait, some are customer lists that have other customers' data

Wait, we can't delete this, some of this stuff is under legal hold

Privacy and Records must co-exist

How do DSARs effect (interfere with) RIM/IG?

- DSARs can mess up normal retention/disposition timing
- They supersede ROT removal and other time vs. value calculations?

Who wins? a potential boardroom brawl

- Records Retention
- Legal Hold
- DSAR

Resolution Outcomes are different in different jurisdictions

- Notably EU vs. US
- Setting up a lot of “it depends”

So how do you do it?
Enter: AutoClassification

How can tools like AutoClassification help establish, manage and maintain the principles of data privacy?

AutoClassification tools can play a significant role in establishing, managing, and maintaining the principles of data privacy within an organization. These tools use automated processes, machine learning, and predefined rules to categorize and classify data based on its content, context, and relevance.

Local Government Property Insurance Fund
Actuarial Service **Contract**

THIS AGREEMENT effective this **1st day of February 2005** (the "Effective Date") by and between the Office of the Commissioner of Insurance (the "Agency" or "State of Wisconsin") and **AMI Risk Consultants, Inc.** hereinafter referred to as "Contractor"

The purpose of this Agreement for **actuarial services** is to assist the Agency to accurately assess rate and premium levels and establish loss reserves (incurred but not reported, IBNR) for the Local Government Property Insurance Fund (the "Fund") on an annual basis to ensure the financial stability of the Fund.

I. Term. The term of this Agreement shall be for one (1) year, from the 1st day of February 2005, and expiring on the 31st day of January 2006. The contract may be renewed for two (2) successive one-year periods upon mutual written agreement of the parties. Contractor will notify the Agency six months prior to the annual expiration if it wishes to renew this Agreement and shall specify any amendments the Contractor wishes to propose.

II. Contact Persons. For purposes of administering this Agreement, the following representatives of each party are hereby designated as appropriate contact persons:

(a) For the Agency:

Danford Bubolz, Insurance Program Officer
Local Government Property Insurance Fund
125 South Webster Street, Madison, Wisconsin 53702

(b) For the Contractor:

Aguedo M. Ingco, President
AMI Risk Consultants, Inc.
11410 North Kendall Drive, Suite 208
Miami, Florida 33176-1031

III. Actuarial Services Required

A. Assist the Fund in annually establishing rates and adequate incurred but not reported claims reserves for the Fund.

DocType = Contract

Effective Date = 2/1/2005

Party Two = AMI Risk
Consultants, Inc.

Term = 1 year

Renewals = two 1 year terms

Keywords = Actuarial Services

Elsewhere: exhibits,
amendments, signatories,
jurisdiction, cover page, etc.

RecordType = Contract

RecordClass = AP/AR Contract

Retention = Expiration + 5Y

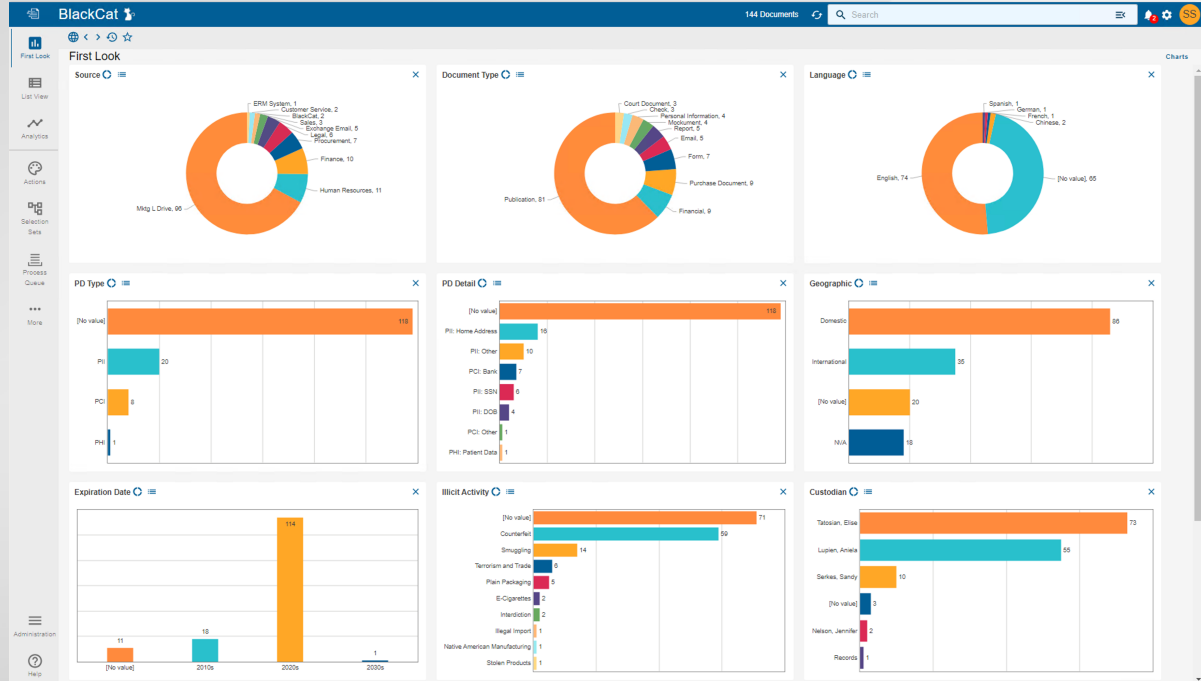

Handling = Delete after
authorization

Sensitivity = Confidential
(protection/redaction based on
user access class)

Auto Classifying a Contract (PII)

Uniform Residential Loan Application

This application is designed to be completed by the Applicant(s) with the Lender's assistance. Applicants should complete this form as "Borrower" or "Co-Borrower" as applicable. Co-borrower information must also be provided (and the appropriate box checked) when the income or assets of a person other than the Borrower (including the Borrower's spouse) will be used as a basis for loan qualification or the income or assets of the Borrower's Spouse will not be used as a basis for loan qualification, but his or her liabilities must be considered because the Borrower resides in a community property state, or the security property is located in a community property state, or the Borrower is relying on other property located in a community property state as a basis for repayment of the loan.

If this is an application for joint credit, Borrower and Co-Borrower each agree that we intend to apply for joint credit (sign below):

Borrower		Co-Borrower		Interest Only

Data Request Form

First Name: _____ Email: _____
Last Name: _____ Phone: _____
Account #: _____
Service Address: _____

Select all that apply:

- Request for disclosure (tell me about my data)
- Request for access (give me my data)
- Request for deletion (delete my data)

Preferred way for feedback on the request:

- Email
- In writing at Service Address

SUBMIT

Where & How to Start:

How to get
your org on board

Who will you need to get on board?

Every piece of content created has different value to each group

- ✓ Who owns the content?
- ✓ Whose goal is most important?
- ✓ What poses the greatest risk?
- ✓ Who owns the budget?

Common Goal:
each group needs to be compliant
with their mandate

Shared content, Shared goals

Content management and data privacy within your organization is everyone's issue

- ✓ Organization and control are for the greater good
- ✓ Should be a shared resource
- ✓ Shared responsibility, shared cost

Common Goal:
centralized management with distributed benefits

How to stand up a data privacy program in 10 “easy” steps

What you'll need:

1. An understanding of the regulations and legal basis for your requirements
2. Policies documenting how you will operate and comply
3. Executive support to implement, maintain and enhance these programs
4. Appropriate tools to execute and ensure compliance
5. Ongoing diligence and management

What you'll get:

1. Data inventory (aka discovery, mapping)
2. Establish tagging/retention criteria
3. Baseline tagging & disposition
4. Remove low hanging fruit (ROT, dupes, past retention, etc.)
5. Implement automated retention that is data privacy-aware (ensures data minimization)

Recommendations: How and where to start

Pilot Use Case

Start with a compelling use case

- Quick and easy that will prove ROI quickly
- Highest risk?
- Prove ROI

Look Forward

Always have an eye on future use cases

- What do you need for this application or use case?
- What will you need for future use cases?

Measure Results

Benchmark results and accuracy of pilot

- Accuracy of results?
- Increase guidance or seek SME?
- What reporting was useful? What else is needed?

Build on Success

Build business case on pilot alone then expand

- Prove ROI functioning system
- Where to next?
- Additional use cases running on same platform

Spread the Word

Sharing is caring, expand internally

- Host internal showcases for mgmt & other departments
- Design pilots that highlight important content, results or exposure points

Cool. How long's that going to take?

Complexity

Of your data environment: cloud, on-prem, structured, unstructured data environments

Goals & Requirements

Input from stakeholders for enterprise-wide approach to data governance.

Amount of Data

Smaller organizations with less data will be faster to process than large enterprise.

Weeks

Months

Phased Implementation

Planning

Prioritize data environments, align stakeholders, set KPIs

Proof of Concept

Limited data set to benchmark and forecast scope/scale

Implementation

Implement scale to process all enterprise content

Delta Monitoring

Continuously look for and process new & edited content

Weeks

Months
